

Teaching with Simulations

RBS
RAJAGIRI BUSINESS
SCHOOL

An Interactive Faculty Development Program

on 15th and 16th February, 2019 at Rajagiri Business School

FDP on HBS simulation is organized by **RBS** exclusively for B School Faculty on February 15th and 16th, 2019. What is Simulation? Simulations are powerful tools for reinforcing student learning, set in seemingly real-world environments. They are simple to set up and extremely user friendly as teaching tools in classrooms and can be used across courses and programmes. Simulations facilitate “Learning by doing” and hence is a very rigorous and effective method of teaching. **The emphasis is on ACTIVE participation and adequate hands-on exposure.** The FDP seeks to familiarise the participants with the techniques needed to integrate SIMs (simulations) within a course and equip them with the necessary skills.

The workshop covers a broad range of topics including:

- ✦ **Setting up a class for using SIMs**
- ✦ **Experience of using a Harvard SIM**
- ✦ **Group work vs individual work**
- ✦ **Designing classroom teaching plans around SIMs**
- ✦ **Gaining Clarity through hands-on participation and Q&A Sessions**
- ✦ **Debrief and wrap-up**
